HONDO WILL BE WELL LIGHTED.

As an outcome of the recent mass meeting called for the purpose of enlarging Hondo's street lighting system, the present system of 16 200-candle power lights, located mainly in the business district, will give way to a system of 46 400-candle power lights distributed all over the town. The depot will be approximately the center of the system with a light at each of the street corners southeast, northeast, northwest and southwest of the depot. From this as a center the lights extend in every direction until almost the entire town, residence section and all will town, residence section and all, will lights will be located on the highway, lighting up the entire length of its passage through town.

Pursuant to the adjournment of the mass meeting of Monday night of last week, the meeting reconvened at the American Legion Hall last Monday night.

The purpose of the meeting was to hear the report of the committee on subscriptions and dispose of the matter. In addition to this several other matters received more or less attention.

Mr. Peter Johnson addressed the meeting on the local oil situation. He said all the big companies have quit operating in this field, but that his company is producing an average daily output of 72 barrels from shallow wells. This is being trucked to town and loaded into tank cars at the tracks. He offered to duplicate any amount local people would subscribe for further tests, either to find a deeper source of oil or widen the present shallow field.

After Mr. Johnson's talk, the soliciting committee, composed of Felix Batot, Joe Ney and H. F. King, were called upon for their report. The committee reported \$3,846.00 subscribed.

On motion, duly put and carried, the report was accepted, the committee discharged and the funds subscribed were turned over to the Directors of the Chamber of Commerce to administer as they have been administering it in payment for the service of a nightwatchman, street lighting and the maintenance of the Chamber of Commerce.

The soliciting committee was voted the thanks of the town for its efficient service by a rising vote. On motion the Board of Directors of the Chamber of Commerce was authorized to determine the location of the street lights, and granted the privilege of calling in any one de-

sired to act with the committee. Later in the meeting, Joe Ney was on motion added to the committee on locating lights.

The purpose of the meeting being accomplished, the matter of the town's water supply was taken up and Mr. Isaac Wilson was called upon to discuss the matter. It was suggested that the waterworks could be bonded, several thousand feet of 6- and 4-inch water pipes be laid and fire-plugs be set so as to afford fire protection to the entire town, and interest on the investment and a sinking fund to clear the indebtedness incurred could be provided by an additional charge of 50 cents on each water user. After more or less informal discussion, the matter was dropped without any definite action being taken.

Dr. W. H. Smith then addressed the meeting at some length on Hondo's needs for a better school building. He said that the present building is not only inadequate but unsafe and that in the near future Hondo would be forced to provide a new school plant. Mr. George H. Muennink and other joined in the discussion, some thinking that the present building is not beyond repairs. In the discussion, several pertinent facts were brought out: one being that \$1500 is still owing on the present building; another that we are prevented by law from levying for school purposes more than 25¢ above the present tax of 75¢; and that the taxable valuation of the district is \$1,480,000. It was suggested that the matter of a new school building and ways and means of securing the same be discussed and agitated through the columns of the local paper.

VAUDEVILLE ACTS FOR MONTH OF DECEMBER

A motion to adjourn prevailed without the meeting committing itself on the matter of a new school building.

In connection with the suggestion that the school matter be discussed through the paper, any signed article from any source dealing with any phase of the matter will be gladly published without prejudice against or favor to any one. Any official statement the Board of Trustees might wish to make would be especially welcome, as would be also a signed statement from the engineers or other authorities who "have condemned" the present building, setting forth the facts upon which the condemnation is made.

Pursuant to the authority vested in them the committee met Tuesday morning in the Legion Hall and with

Manager Blum went over the situation carefully and located not 36 but 46 400-candle power street lights over the town as effectively and evenly as seemed humanly possible. The lights as tentatively agreed upon will cost the town \$1840.00 per year. A town map showing the proposed location of these lights has been mounted and may be seen at the Chamber of Commerce Hall. Go around and look it over and you will agree with this paper that when they are turned on in all of their power night will be turned into a blaze of glory for Hondo.

Upton McGary left today for Houston where he will spend some time with the family of his son, Stanton U. McGary. Mr. McGary has been a printer and newspaper man practically all of a long active life and the last eleven years of these he spent in this office much of which time the editor was away and he shouldered much of the responsibility for the office. Like few printers, Mr. McGary gave his son a finished University education and at the same time accumulated a sufficient store of worldly goods to retire from the strenuous grind of a printshop in the summer of 1925. Since that time he spent his time quietly at home, enjoying the well-earned leisure that is the reward only of the frugal and industrious, in the companionship of his wife. Since her recent death, he has been alone and at last yielded to the urgings of his son and daughter-in-law to come to them in Houston. Mr. McGary's plans are only tentative but he has rented his home here and will be absent for at least several months. His familiar presence and his genial Irish wit will be missed by all, and by this editor most of all, for during all the years of our dependence upon him a feeling of attachment for him not unlike the feeling for an elder brother was formed for him. In our wish that the sunset rays of his long life may fall in pleasant places for him we are sure all who know him will join us.

If you need a daily newspaper we would like to forward your subscription for you to the Dallas News, the best daily paper in the South, and one reaching here at 11:50 o'clock on the morning of its publication. If a semi-weekly answers your needs for a family newspaper, the Semi-weekly News is the ideal paper and costs only \$1.00 a year. FARMING goes with either of these papers at their price alone, if you remit through this office. Let us have your subscription. 16-tf

The bear hunters to Mexico, mention of which was made some two weeks ago in these columns, returned empty handed. Some think it was because C. W. Gilliam was the Jonah of the expedition, as he was the 13th member of the party. As soon as he discovered this and remembered that the party started out on the 13th day of the month, he hurriedly quit them and returned home. After his generous sacrifice he thinks it unjust to accuse him of all the hard-luck and contends that the cause for the failure of the trip to produce bear grease is because the bears have not been sufficiently tamed.

BAPTIST W. M. S.

The Baptist W. M. S. held one of the best attended and most interesting meetings of the year last Tuesday with Mrs. F. A. Brown, Mrs. T. Richardson and Mrs. S. L. Randall as hostesses. The Ingathering Program of the week of prayer in the interest of the Lottie Moon Christmas Offering was led by Mrs. H. Roberts, the subject being "Starlight in Lands of Night". What a wonderful "Starlight" would do for the individual, the home and the nation was discussed from every viewpoint and we were truly led to feel that:

It is the chart and compass That o'er life's surging sea, And mists and rocks and darkness, Still guides, O Christ, to Thee". The Y. W. A. girls, who were attending this meeting in a body, suddenly disappeared at the close of the program but the reason was apparent when they began serving to the W. M. S. a bountiful and delicious three course luncheon, consisting of shrimp salad, potato chips, saltines, olives, pecanate, whipped jello, and fruit cake.

Those present were: Mesdames Ervin Beal, W. C. Brown, Nettie H. H. Crow, Jack Fusselman, W. Griffiths, Amos Harllie, Wesley Leinweber, Berta McCall, F. L. McWilliams, Albert Nelson, J. H. Roberts, Newell Woolls, Roy Word, Mesdames Fanye Carle, Evelyn and Grace Griffiths, Ethel and Ora Harllie, Thelma Lynch, Bessie Mae Mask, Luine Metzger, Lena Stone, Marie Taylor, Rhoda Mae Taylor and the hostesses.

BIG SALE NOW ON.

Clear across the center spread of this paper, where no one can miss it, will be found the two page announcement of the Hondo Mercantile Company's Quitting Business Sale. Owing to the rush in getting by the printers, only a limited number of prices are mentioned on specific articles, but everything in the store goes, including all the fixtures.

This is not a money-raising sale but a bonafide Quitting Business Sale, as the Messrs. Muennink are going out; the Senior to retire from his business, the Junior to give entire attention to his office of Collector.

This sale starts this morning; you will have to hurry if you get first pick.

One registered Duroc-Jersey gilt and some pigs for sale. FRANK A. GRAFF, Phone 960F41.

A PRETTY HOME WEDDING.

Last Wednesday morning at 11 o'clock Mr. J. T. Kinnard of Lulling and Miss Olga Rothe were united in the bonds of holy wedlock at the beautiful farm home of Mr. and Mrs. Jacob Rothe, several miles west of D'Hanis. The solemn service was held in the nicely arranged parlor and was witnessed by the parents of the bride and a number of relatives, Rev. C. P. Haskari of the Quilhi Lutheran Church officiating. Following the service a splendid wedding dinner was served and greatly enjoyed by all present.

Miss Olga Rothe, the bride, is the accomplished daughter of Mr. and Mrs. Jacob Rothe, is well and favorably known in her home community, as well as in Hondo, where she attended and graduated from the high school last spring. A host of admiring friends wish her God speed in her wedded life.

Mr. Kinnard is a young man of excellent report and doubtless will make a devoted husband. He lives in Lulling and is an oil driller in the employ of the Magnolia Oil Co. After their return from their wedding trip to Laredo, Mr. and Mrs. Kinnard will establish their home in Lulling. May their mutual way through life be happy and prosperous.

BOY SCOUTS OBSERVE "BETTER BOOK WEEK" NOV. 7-13.

Recently a Scout Executive visited the father of a twelve-year old boy on a Texas ranch, seventy-four miles from the nearest town. He talked with the boy and found he was planning, when he went to college, to enter Oxford. Why should a boy so located choose a college so distant? The father gave the answer: "The boy had read 'Tom Brown at Oxford', having for a period of weeks slept with the book under his pillow."

It is because of this understanding of the influence of books upon boys that the Boy Scouts of America from the very beginning accepted responsibility for giving direction to the recreational reading interests of the boys of America. Under the direction of M. M. Fulmer, Scout Executive, the Southwest Texas Council is co-operating with the libraries in urging boys and girls to read better.

Speaks to Women

Dallas, Texas.—"I was run-down in health after the 'flu' and suffered from ailments peculiar to women. I took a small amount of Dr. Pierce's Favorite Prescription and it gave me health and strength. Without going into details about my suffering, I will just say I can earnestly recommend the 'Favorite Prescription.' It is a reliable tonic for women." — Mrs. Hallie Moore, 4024 Main St.

Women, get well and strong now by obtaining this "Prescription" of Dr. Pierce's of your druggist, in tablets or liquid; send 10c to Dr. Pierce, President Invalids' Hotel in Buffalo, N. Y., for a trial package of the tablets.

books, and in supplying them with those books.

Now is the time to begin to think of Christmas gifts for our boys and girls. And if you are a wise parent, you are planning to have tucked away somewhere on the Christmas tree a really good book or two, which will still be read and prized long after the blue-eyed doll or the roller-skates have been worn out and discarded.

James E. West, Chief Scout Executive, Boy Scouts of America, says, "I look upon the Reading Program as one of the most important factors in our whole movement. I know that the printed page has great influence on the lives of boys. I know that the good, wholesome story will often make an impression where the spoken word utterly fails. I know that if we are genuine in devoting our lives and service to the development of character in the boys of America, we cannot ignore the fact that every boy—some boys more than others, but every boy, more or less,—is influenced by what he reads."

HOLDS MAN FOR HONDO

A few nights ago Sheriff Hauser and deputies were called out to a house to quell a fight between two women and while there found some goods that looked suspicious, and in the course of questioning different parties on the premises learned that a man had brought them there, and later Hondo was connected with it.

The sheriff phoned Hondo authorities and they confirmed the report that several houses had been broken into and a lot of goods stolen a few nights previous. He asked them to send him a list, and in a few minutes the list was read to him over the phone. The goods found compared with a part of those lost, so the sheriff took charge of the goods and set about to catch the man, but he had crossed the river. Mr. Hauser got in immediate touch with Piedras Negras officers who set about to catch him but had failed to find him for the first day or two, so he went over and got on the job himself in connection with a policeman they furnished him last night, after getting a clue here that he was stopping at a brickyard. They searched the several brickyards and finally found him and a woman, claiming to be his wife, in a locked room in a small house, and brought them both back to Piedras Negras. Immigration authorities put them over the line to him this morning, and he locked both up here, and notified Hondo officers who are coming for him.

The man's name is given as Juan de los Santos, who formerly lived here. The woman with him is also being held on a charge of helping him dispose of stolen property. It is said that the stolen articles were being disposed of over the river in small quantities at a time—Eagle Pass Guide.

AUTO LUNCHES FOR THE WEEK-END TRIP.

By Marian Jane Parker
Home Economics Department
Calumet Baking Powder Co.

Every week-end sees processions of automobiles with full picnic hampers whizzing off to the country, loaded with jolly carefree people, their faces expressing their anticipation of two or three happy days in the mountains or on the cool wooded shore of a lake.

The lunch, of course, falls to the women, if they are on the trip and plans in advance to make it just the nicest camping party ever planned are constantly before them, and too, they want everyone to be able to

say on their return, "and we never had the same thing twice." It may sound like a fairy story to one who plans the meals, but it is really possible to bring your campers, family or otherwise, back from a six weeks vacation with this remark on their lips.

Of course it takes careful planning, especially in the matter of leftovers, but even they can be used successfully if you buy wisely and plan carefully. Campers are too prone to depend upon the frying pan and serve a succession of fried bacon, steaks and chops. These are delicious and yet should be indulged in sparingly on account of the grease. To the Girl Scout the kabob suggests an unrivaled treat. The simplest form of kabob is a small piece of steak sufficient for one serving, on the end of a green stick, broiled over glowing coals and eaten with bread and butter. As one becomes more efficient, alternate bits of steak and bacon may be arranged on the green stick and broiled in the same way. To many, this is much easier than broiling the whole steak on a gridiron and cutting it in servings thereafter. The most elaborate form of kabob is arranged by alternating individual pieces of steak, thinly sliced onion, and thinly sliced potatoes along the stick. Of course, one has to be skillful to cook all these at the same time, yet it can be done.

Practically all of our women's Magazines are printing excellent articles on camping suggestions together with menus and recipes for the entire stay, whether it is one or two weeks. I am going to give you a couple of dandy recipes I read in Good Housekeeping, possibly some of you didn't notice them or have loaned the magazine by now, just when you need it.

Have you ever tried a Cheesebob, as the Camp Fire Girls call it? Since cheese melts when it is toasted, it is necessary to wrap each piece of cheese very carefully in each slice of bacon. Thrust the slender, pointed, green stick through the bacon in such a way that it will keep it from unwrapping. By the time the bacon is broiled, the cheese is deliciously melted. It is a wise precaution to hold a piece of toast or bread in one hand during the cooking, to use as a plate if the bacon begins to drop its burden.

Komac Stew never tastes better than when made on an open fire. Heat a frying pan and melt three tablespoonsful of butter in it. Add two medium-sized onions sliced thin, one green pepper washed, seeded, and chopped fine, and either six large fresh tomatoes or one can of tomatoes. Then add one teaspoonful of salt or more, if necessary. Cover and stew slowly about one-half hour, stirring frequently. Just before serving add three eggs one by one, stirring them in. Serve immediately on toast or crackers.

Grilled Cheese Sandwiches are delightful when made in the open lay large, thin slices of cheese between two slices of buttered bread. Either toast these on the end of a green

LINOTYPE.

By Read Bain.

What are these whirling wheels and rattling bars,
This wilderness of cogs and cams and keys,
This clicking buzz like large metallic bees,
Singing its songs of fetid slums and stars,
Of rising Man and dull, decaying Czars?
This sentient thing whose hot thoughts freeze
To shining slugs that carry tragedies
And mirth—abstractions and particulars?
Its reaching rods are fingers skilled and true
Compared to which all fleshly hands are frail;
Electric, tireless, beating their fast tattoo,
They tell to men life's endless, varied tale.
Here is the voice without which man is dumb;
If it to stilled, silence and chaos come.

SOME DO'S IN PREPARING EGGS FOR MARKET.

Proper feeding is very important. Your flock should have a well balanced scratch grain, mash, oyster shell, charcoal, grit and green stuff.

2. Keep clean water out all the time. An egg is 66-2-3 per cent water. When eggs sell for 50 cents per dozen, you are selling 33.3 cents worth of water in each dozen of eggs. Water is your cheapest feed.

3. Be sure to provide at least one nest for every four or five hens. These nests should have clean, fresh straw at all times.

4. To get the best quality of eggs, they should be gathered at least twice a day.

5. After the breeding season is over, dispose of all the cock birds and produce infertile eggs. Remember that fertile eggs germinate at 68 degrees temperature.

6. Confine all the broody hens the first night they are found on the nest.

7. Use all over-size, under-size, cracked shell, dirty and stained eggs for home use. Sell only uniform eggs.

8. If you are selling by the case, use new cases and new fillers.

9. Sell your eggs at least two or three times each week. Be sure to protect the cases from heat, cold and moisture.

10. Eggs absorb odors very quickly, so be sure to keep your eggs in a cool place free from all odors.

11. Don't forget that fresh air, fresh water, and wholesome feed will make healthy flocks to produce eggs of the highest quality which will bring the highest market price.

Moving Rig to Jungman Well Again.

Schermerhorn's San Antonio Trust Oil well No. 4, is pronounced a dry hole and the rig is being moved back to Jungmann No. 1, where considerable oil was found, but for fear of going into salt water, was stopped in the oil sand. It is believed that the finding of no water below this showing of oil in the Schermerhorn No. 4, will warrant the drilling deeper of Jungmann No. 1, without the danger of striking salt water.

Keep in Trim!

Good Elimination Is Essential to Good Health.

THE kidneys are the blood filters. If they fail to function properly there is apt to be a retention of toxic poisons in the blood. A dull, languid feeling and, sometimes, toxic backaches, headaches, and dizziness are symptoms of this condition. Further evidence of improper kidney function is often found in burning or scanty passage of secretions. Each year more and more people are learning the value of Doan's Pills, a stimulant diuretic, in this condition. Scarcely a nook or hamlet anywhere but has many enthusiastic users. Ask your neighbor!

INFANT DAUGHTER OF MR. AND MRS. TOM WATSON.

The 19 months old babe of Mr. and Mrs. Tom Watson of Biry died enroute to the physician in San Antonio Monday night, Nov. 1, 1926. Dr. Woods met them on the road and sent them on to San Antonio, but between Natalia and Lytle the babe passed away. It had sucked an acorn down its throat about six weeks ago. It was thought it would be all right though it had swallowed the acorn completely. But it took suddenly ill at 9 o'clock Monday night.

Malinda Bertha Watson was born March 27, 1925. She died Nov. 2, 1926. She was taken to the home of her aunt, Mrs. Ernest Boehle, at Hondo, where the pastor from the Methodist Church performed the sad funeral rites. And from there she was taken to the Lutheran cemetery and put away, the grave being literally covered with flowers. Little Malinda was a bright sweet spirited baby and was christened in the Lutheran Church at Hondo when she was two months old. She was loved by every one who knew her. She was the light of the home.

Yes, Dear Malinda, you have left us.
No more with us you can be,
But in Heaven we will meet you,
Where from sorrow we'll be free.

'Tis sad for father and mother,
But the will of God be done,
And at the Pearly gates of Heaven
You must try and meet your darling one.

Dear will be her memory ever,
Who was always near your side.

Headache dizziness

"I HAVE headache once in a while, usually coming from constipation or torpid liver," says Mr. L. A. Morphis, of Pottsville, Ark., "and the very best remedy I have found to correct this condition is Theodor's Black-Draught. It acts quickly and easily, and it just can't be beat."

"Black-Draught is the very best laxative I have found. I always feel so much better after taking it."

"My wife takes Black-Draught, too. For dizziness, constiveness and any little stomach disorder, we find it most satisfactory, and consider Black-Draught a family medicine."

Constipation, with an inactive liver, locks up poisons in the body and allows them to do their dangerous work.

Being purely vegetable and containing no harmful drugs, Black-Draught acts gently, helping the system get rid of impurities and preventing serious sickness. Get a package today. Sold everywhere. 25 cents.

THE LAST NOVEL
Ever Written By
GENE STRATTON-PORTER
Just Starting in McCall's
Shortly after this beloved novelist's sudden death nearly two years ago, Mrs. Porter's daughter found among her mother's papers the complete manuscript of a novel—"The Magic Garden"—a romance as delicate, as whimsical, as satisfying as that last fiction success, "The Keeper of the Bees." And now "The Magic Garden" is just starting serially in McCall's. Don't miss this story of a poor little rich girl who ran away to find love.
